

EZ KUT Products based in Lake Zurich, Illinois and the Sanz Group of Valencia, Spain are proud to announce that they have formed a new joint venture. In November, an incorporation agreement was finalized between the two companies in order to expand their market presence, both internationally and throughout North America.

EZ KUT Products, which specializes in the sale and distribution of high quality outdoor cutting tools, is a recognized leader in the industry and brings 30 years of experience to the partnership. EZ KUT's multi-channel knowledge, market presence and distribution experience will be instrumental in introducing the Sanz Group family of brands—Pulmic, Kamikaze and Keeper—to the American marketplace.

PULMIC
TAKE CONTROL

keeper
Happiness is gardening

Kamikaze
Performance in your hands

EZ KUT Products and the Sanz Group have successfully partnered to bring several new products to the market over the past four years. This formal partnership with the Sanz Group will now allow EZ KUT Products access to new working capital, research and development, engineering and manufacturing resources. This effort will greatly expand and grow their market share. The new joint venture will move forward under the leadership of EZ KUT Products Scott Bast (President) and executives from the Sanz Group.

Starting very soon you will be seeing the introduction of the new brands and products on our redesigned website, social media, email marketing campaigns and a new booth look at shows across the country. We will be attending the National Hardware Show and GIE to name a couple. Please stop and say hi.

The new holding company of all the brands is now called EZ TOOLS & SPRAYERS and is represented by the new logo.

**EZ TOOLS &
SPRAYERS**
